

# DUBAI METRO

BMTS entrusted the Metro project execution to its Special Projects Team in 2008 and assigned 100 technicians and engineers to complete the project before 09.09.2009. BMTS is proud to be part of this prestigious project and has successfully

- Commissioned Fire Alarm and Fire Fighting solutions at Dubai Metro stations
- Installed the Public Address and Voice Alarm system at Dubai Metro car parks
- Provided Fiber Optic Heat Sensing Cables for the Metro Tunnels for detection of fire related problems in an approximate area of 13.5km

## QUICK FACTS ABOUT THE METRO PROJECT

### Metro Stations

Fire Devices Installed: 11722  
 Fire Alarm Control Panels: 32  
 Linear Heat Sensing Cables: 38K  
 Fiber Optic Heat Sensing Cables (tunnel): 8K  
 Fire Rated Cables: 105K  
 Fireater FM200 Control Panels: 485  
 FM200 Gas: 55 Tons

### Metro Car Parks

Jumeirah Island Car Park, Rashidiya Car Park  
 Fire Alarm Devices Installed: 1200  
 Public Address Voice Alarm Devices: 2000  
 Fire Alarm Control Panels: 4  
 Linear Heat Sensing Cables: 2Km  
 Fire Rated Cables: 24Km
